

TREASURY DEPARTMENT FOR THE FISCAL YEAR ENDED 30TH SEPTEMBER 1863

"My Lord Patterner, will you defy our Rule and our community, that has been one so long, upholding. The dragons offered no threat during this period, and the Kargs had withdrawn into their own." "You're going to Roke to find out," he said, raising his glass to her. After a moment she raised hers and smiled at him, a smile so tender and radiant that he said spontaneously, "And may what you find be all you seek!" "Why so, Tern?" "Ivory! That fellow that studied with the Hand? Is he here?" the Changer demanded of Irian, the boy's true name so that he could be sure of controlling him. He sighed at the thought of the. He listened. "To come here," he said. He was beginning to tremble less. His bare feet were a sad sight. And it's true that in the time of Medra and Elehal the people of Roke, men and women, had no fear. Otter felt as if he were being brought back to vivid life from interminable, dreary, dazed half sentience. At the wizards touch he did not feel the horror of the spellbond, but rather a gift of energy and hope. He told himself not to trust this man, but he longed to trust him, to learn from him. Gelluk was powerful, masterful, strange, yet he had set him free. For the first time in weeks Otter walked with unbound hands and no spell on him. "Wait here a little, if you please, Irian," the Doorkeeper said, and went into the room, leaving. for dragons! But that there was some kind of scheming and gathering together of men of power on. To love power and to share it is the royal way. Look. Watch what I do." Gelluk held up the pouch into which he had put the few drops of quicksilver. His eye always on Otter's eye, he unsealed the pouch, lifted it to his lips, and drank its contents. He opened his smiling mouth so that Otter could see the silver drops pooling on his tongue before he swallowed. sweeps half manned, Medra's staying spell half spoken, when the witchwind struck. She came there. She came to me, not in the body, and guided me to the track. She was only twelve. "But why-?" been more than two hundred. "More likely to kill the beasts that sicken with it," the man said. He sounded a bit sleepy. Knowing the Enemy's name, he was able to counter his enchantments and drive him from Enlad, pursuing him across the winter sea, "riding the west wind, the rain wind, the heavy cloud." Each had met his match, and in their final confrontation, somewhere in the Sea of Ea, both perished. Whether performed or read silently, all such poems and songs are consciously valued for their. chair, worn but good, strong shoes, and a pair of knit wool stockings to go with them. Through that city. socket. He found a carter who would carry them down to Endlane, Otter's mother and sister were living with. "You won't find out. It's all lies, shams. Old men playing games with words. I wouldn't play their games, so I left. Do you know what I did?" He turned, showing his teeth in a rictus of triumph. "I got a girl, a town girl, to come to my room. My cell. My little stone celibate cell. It had a window looking out on a back-street. No spells - you can't make spells with all their magic going on. But she wanted to come, and came, and I let a rope ladder out the window, and she climbed it. And we were at it when the old men came in! I showed 'em! And if I could have got you in, I'd have showed 'em again, I'd have taught them their lesson!" "That girl you liked, witch's Rose, she's tuning about with Labby, I hear. No doubt they'll come. In her bed, in the dark, she lay and thought: He knew the wizard who named me. Or I said my name. Maybe I said it out loud in my sleep. Or somebody told him. But nobody knows it. Nobody ever knew my name but the wizard, and my mother. And they're dead, they're dead... I said it in my sleep... When she laughed, her thin face got bright, her thin mouth got wide, and her eyes disappeared. cling to - the ... purity of that rule." "Once?" she said. "Or twice?" weatherworking, and even healing, because they held no fear, no challenge to him. He saw no virtue. "Look at all the stuff you can do," she said. "You couldn't do any of it if you didn't have a. with a spell, if I have to. And the band, they're all right. Labby isn't as bad as he looks. He had turned up on Dulse's doorstep a few years ago. Well, no, twenty years ago it must be, or." "Your name is beautiful, Irioth," she said after a while. "I never knew my husband's true name. A globe of misty, greenish fire drifted swiftly down the corridor at eye level, apparently pursuing the young man. The Doorkeeper waved his hand at it, and it avoided him. Irian swerved and ducked down frantically, but felt the cool fire tingle in her hair as it passed over her. The Doorkeeper looked round, and now his smile was wider. Though he said nothing, she felt he was aware of her, concerned for her. She stood up and followed him. So well in hand did Early have Losen's men that within two days the great fleet set forth from Havnor, gathering its tributaries on the way. Eighty ships sailed past Ark and Ilien on a true and steady magewind that bore them straight for Roke. Sometimes Early in his white silk robe, holding a tall white staff, the horn of a sea beast from the farthest North, stood in the decked prow of the lead galley, whose hundred oars flashed beating like the wings of a gull. Sometimes he was himself the gull, or an eagle, or a dragon, who flew above and before the fleet, and when the men saw him flying thus they shouted, "The dragonlord! the dragonlord!". After a while he said, "I could chase an etymology on the brink of doom ... But I think, Azver, shape-changer, so fearless that he would take even dragon

form..King Maharion sought peace and never found it. While Erreth-Akbe was in Karego-At (which may have been a period of years), the depredations of the dragons increased. The Inward Isles were troubled by refugees fleeing the western lands and by interruptions to shipping and trade, since the dragons had taken to setting fire to boats that went west of Hosk, and harried ships even in the Inmost Sea. All the wizards and armed men Maharion could command went out to fight the dragons, and he went with them himself four times; but swords and arrows were little use against armored, fire-spouting, flying enemies. Paln was "a plain of charcoal," and villages and towns in the west of Havnor had been burnt to the ground. The king's wizards had spell-caught and killed several dragons over the Pelnish Sea, which probably increased the dragons' ire. Just as Erreth-Akbe returned, the Great Dragon Orm flew to the City of Havnor and threatened the towers of the king's palace with fire..Hound sniffed, sighed, and followed, trudging along unwillingly, while behind him in the village.through greed, the other through foolishness. They were both shivering, their teeth chattering. They stood face to face in the black lane, hardly able to see where the other was. Dragonfly put out her groping hand and met the witch's hand. They put their arms round each other in a fierce, long embrace. Then they hurried on, the witch to her hut near the village, the heiress of Iria up the hill to her ruinous house, where all the dogs, who had let her go without much fuss, received her back with a clamour and racket of barking that woke everybody for a half-mile round except the Master, sodden drunk by his cold hearth..Golden did not like the child. When she stumbled he caught her arm. After that they went on pressed close side by side for comfort and for the little warmth. They walked slower, and yet slower, but they walked on. But they put men where we put the world. And so they hold that a true wizard must be a man.."Well," Rose said, and dumped out the salt water on the bare dirt of the small front yard of her house, which, like most witches' houses, stood somewhat apart from the village. "Well," she said, straightening up and looking about vaguely as if for an answer, or a ewe, or a towel. "You have to know something about the power, see," she said at last, and looked at Dragonfly with one eye. Her other eye looked a little off to the side. Sometimes Dragonfly thought the cast was in Rose's left eye, sometimes it seemed to be in her right, but always one eye looked straight and the other watched something just out of sight, around the corner, elsewhere..For Golden looked on the Art Magic with genuine humility as something quite beyond him -- not a.her clutch in the henhouse. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles..try to close himself off to it. But the boy had met his match in the Masters..In the evening he lay down on the ground and talked to it. "You should have told me, I could have
