was stiff, rejecting him. Then she turned and, fierce, hasty, awkward, seized him in her arms. It. "Ah," San said, coming to the door, and hemmed a bit. "No need, Master Otak. This here is Master Sunbright, come up to deal with the murrain. He's cured beasts for me before, the hoof rot and all. Being as how you have all one man can do with Alder's beeves, you see..." His spies had been coming to him for a year or more muttering about a secret insurgency all across his realm, rebellious groups of sorcerers that called themselves the Hand. Eager to find his enemy, he had one such group investigated. They turned out to be a lot of old women, midwives, carpenters, a ditchdigger, a tinsmith's prentice, a couple of little boys. Humiliated and enraged, Early had them put to death along with the man who reported them to him. It was a public execution, in Losen's name, for the crime of conspiracy against the King. There had perhaps not been enough of that kind of intimidation lately. But it went against his grain. He didn't like to make a public spectacle of fools who had tricked him into fearing them. He would rather have dealt with them in his own way, in his own time. To be nourishing, fear must be immediate; he needed to see people afraid of him, hear their terror, smell it, taste it. But since he ruled in Losen's name, it was Losen who must be feared by the armies and the peoples, and he himself must keep in the background, making do with slaves and prentices..With age Hound had come to look his name, wrinkled, with a long nose and sad eyes. He sniffed and seemed about to say he did not know, but he knew better than to try to lie to Early. He sighed. "Otter," he said. He found the queer little valley called Trimmer's Dell, the true name of which in the language of the Making was Yaved, as Ogion's true name was Aihal. He walked about there all one day, as if seeking something. In the evening he lay down on the ground and talked to it. "You should have told me, I could have said goodbye," he said. casually asked: PEOPLE not there. A bumblebee buzzed heavily through the air where he had been. After Maharion's death in 452, several claimants contested the throne; none prevailed. Within a few years their struggles had destroyed all central governance. The Archipelago became a battleground of hereditary feudal princes, governments of small islands and city-states, and piratic warlords, all trying to increase their wealth and extend or defend their borders. Trade and ship traffic dwindled under piracy, cities and towns withdrew inside defensive walls; arts, fisheries, and agriculture suffered from constant raids and wars; slavery, which had not existed under the Kings, became common. Magic was the primary weapon in forays and battles. Wizards hired themselves out to warlords or sought power for themselves. Through the irresponsibility of these wizards and the perversion of their power, magic itself came into disrepute. When he was on Orrimy, Medra had learned to read the common writing of the Archipelago. Later, language of their art, the Language of the Making: 'Irian, by your name I summon you and bind you.' 'Well, why can't you do it all? The magic and the music, anyhow? You can always hire a bookkeeper.' This little scene? The other passengers paid no attention to her. For the hundredth time I was vapor chambers with red-hot ovens whose vents led up to refining rooms where the soot from the Morred s Isle, they call it. But it's not Enlad of the Kings, nor Ea. It's south, not north of nearest was open. I looked in. A large, broad-shouldered man looked in from the opposite side. Someone were at my heels. The next street headed up and ended at an escalator. I thought that man. He'll do no harm while I'm with you.' 'You did?' Then for a while he held still, body and mind, beginning to understand for the first time where. Among all beings ever returning. 'Oh,' she said with a full mouth, 'I didn't know how hungry I was!'. Two days later, when they had reopened the old shaft and begun digging towards the ore, the wizard. 'Go on,' the witch murmured. The wizard who called himself Gelluk and the pirate who called himself King Losen had worked together for years, each supporting and increasing the other's power, each in the belief that the other was his servant. Hearing he was there, the teachers of Roke came, the men and women who were masters of their craft. Medra had been the Master Finder, until he went to the Grove. A young woman now taught that art, as he had taught it to her. wizard, and so, thinking to earn her porridge, she did her best to repair the Otter's House, between Sans house and the tavern. Hound, and used him as seldom as possible, but Hound was too useful not to use. knew about Early. Not a sign of him nor from him. Maybe I could find him, they said, joking me. A long silence, then suddenly. Dulse paused. 'He was my master. Would have been my friend, perhaps, if I'd stayed on Roke. Have. BUT OF COURSE he went down to Havnor South Port, in one of his father's carts driven by one of his father's carters, along with Master Hemlock. As a rule, people do what wizards advise them to do. And it is no small honor to be invited by a wizard to be his student or apprentice. Hemlock, who had won his staff on Roke, was used to having boys come to him begging to be tested and, if they had the gift for it, taught. He was a little curious about this boy whose cheerful good manners hid some reluctance or self-doubt. It was the father's idea, not the boy's, that he was gifted. That was unusual, though perhaps not so unusual among the wealthy as among common folk. At any rate he came with a very good prenticing fee paid beforehand in gold and ivory. If he had the makings of a wizard Hemlock would train him, and if he had, as Hemlock suspected, a mere childish flair, then he'd be sent home with what remained of his fee. Hemlock was an honest, upright, humorless, scholarly wizard with little interest in feelings or ideas. His gift was for names. 'The art begins and ends in naming,' he said, which indeed is true, although there may be a good deal between the beginning and the end.
