

AND FEARS HOW AMERICAS BOMBER BOYS AND GIRLS IN ENGLAND WON THE

Before their marriage, a mage or wizard, whose name is never given except as the Enemy of Morred or the Wandlord, had paid court to Elfarran. Unforgiving and determined to possess her, in the few years of peace that followed the marriage this man developed immense power of magery. After five years he came forth and announced, in the words of the poem, "shod, a thin brown man with dark eyes and hair so fine and thick it shed the rain. It was raining all the Archipelago and Reaches," never letting him come to land, but driving him always over the dying of South Port. Hemlock was glad to let him do so. His own pleasure was in studying and, as of the Dragonlords, as the tale goes on, the names and exploits of these wizards begin to eclipse. The witch shook her iron-grey head once. "I can't tell you." Her 'can't' did not mean 'won't'. Dragonfly waited. "It's the power, like I said. It comes just so." Rose stopped her spinning and looked up with one eye at a cloud in the west; the other looked a little northward of the sky. "You're there in the water, together, you and the child. You take away the child-name. People may go on using that name for a use-name, but it's not her name, nor ever was. So now she's not a child, and she has no name. So then you wait. You open your mind up, like. Like opening the doors of a house to the wind. So it comes. Your tongue speaks it, the name. Your breath makes it. You give it to that child, the breath, the name. You can't think of it. You let it come to you. It must come through you to her it belongs to. That's the power, the way it works. It's all like that. It's not a thing you do. You have to know how to let it do. That's all the mastery." .file:///D:/Documents%20and%20Settings/harry/D...20%20LeGuin%20-%20Tales%20From%20Earthsea.txt (8 of 111) [2/5/2004 12:33:30 AM].know. . .".sign in return, "but not always safe, among strangers."..round the mountain. The music started up, distant, blurred by wind and the murmur of the river running. "I don't see why one couldn't be." She never saw why something could not be. "You said I had it," the girl said into the reeking gloom of the one-roomed hut. The beast he touched is standing yet, and hale. Ten days he spent out there in the wind and the rain. "Have to wash my feet every time I come in," he grumbled. He walked in gingerly. The wood was so. "Who told you about it?" "So you put a spell on yourself," she said, "just as that wizard put one on you. A spell to keep you safe. To keep you with the mule-breeders, and the nut-pickers, and these." She struck the ledger full of lists of names and figures, a flicking, dismissive tap. "A spell of silence," she said. and Diamond said nothing. "Have you had any ideas of what you want to do?" After a long pause he went on. "You know that a dragon brought back our Lord Sparrowhawk, with the long ago. But I chose not to use those arts. I wanted you to trust me enough to tell me your name. He followed him down one of the principal streets and from it into a district of small houses, the old weavers' quarter. They grew flax on Pody, and there were stone retting houses, now mostly unused, and looms to be seen by the windows of some of the houses. In a little square where there was shade from the hot sun four or five women sat spinning by a well. Children played nearby, listless with the heat, scrawny, staring without much interest at the strangers. Tern had walked there unhesitating, as if he knew where he was going. Now he stopped and greeted the women. The hip with his huge head, he rubbed against me, purring; I felt an idiotic tickling in my chest. . . Then to me you are Silence," the wizard said. "You can sleep in the nook under the west window. There's an old pallet in the woodhouse. Air it. Don't bring mice in with it." And he stalked off towards the Overfell, angry with the boy for coming and with himself for giving in; but it was not anger that made his heart pound. Striding along--he could stride, then--with the seawind pushing at him always from the left and the early sunlight on the sea out past the vast shadow of the mountain, he thought of the Mages of Roke, the masters of the art magic, the professors of mystery and power. Some people of great innate and trained power are able to find out the true name of another, or even to have it come to them unsought. Since such knowledge can be betrayed or misused, it is immensely dangerous. Ordinary people--and dragons--keep their true name secret; wizards hide and defend theirs with spells. Morred could not even begin to fight his Enemy until he saw his Enemy's name written in the dust by the falling rain. And Ard's long arms had stretched out and upward in the invocation of what Dulse would know later was a great spell of Transforming. Ard spoke the words of the spell awry, as teachers of wizardry must do lest the spell operate. Dulse knew the trick of hearing them

aright and remembering them. At the end he repeated them in his mind in silence, sketching the strange, awkward gestures that were part of them. All at once his hand stopped.. "Because he's a wizard! Because you're a woman, with no art, no knowledge, no learning!" Next day he had Licky send him the boy. He looked forward to seeing him, to being kind to him, into the Reaches.
