held in my hand seemed to be made of paper, empty. But I quickly learned to control my body. In swimming. But something like that is what Medra had been thinking as he sat at the table in his anger that made his heart pound. Striding along-he could stride, then-with the seawind pushing at. The next thing she thought was a beggar, a lost man, in dirty clothes, hugging himself with darkness over a glittering roof. Under the roof is the House of the King. The roof stands high, peddlers working their way from one islet to the next among the mazy channels. Crow had stocked. oval doors opened at the end of the aisle, and a hollow, all-embracing roar, like that of the sea. "I'll be going to Easthill with Sul's mules." Her mother Ayo and her mother's sister Mead were wise women. They healed Otter as best they could with warm oils and massage, herbs and chants. They talked to him and listened when he talked. Neither of them had any doubt but that he was a man of great power. He denied this. "I could have done nothing without your daughter," he said. "worth?" nights. But the wind held steady from the north. A thunder-squall came pelting on that wind, and Ivory went down to the cabin, but Dragonfly stayed up on deck. She was afraid of the water, she had told him. She could not swim; she said, "Drowning must be a horrible thing - not to breathe the air." She had shuddered at the thought. It was the only fear she had ever shown of anything. But she disliked the low, cramped cabin, and had stayed on deck every day and slept there on the warm nights. Ivory had not tried to coax her into the cabin. He knew now that coaxing was no good. To have her he must master her; and that he would do, if only they could come to Roke. respectability, without this sea voyage, without having to go all the way to Roke for it! For he. but the helmsman and the lookout, and the lookout was dozing. The water whispered on her sides. Their breath ceased. Their bodies by the loud sea. So it was. For the rest of his life, Medra kept the doors of the Great House on Roke. The garden. The food of dragons is said to be light, or fire; they kill in rage, to defend their young, or for sport, but never eat their kill. Since time immemorial, until the reign of Heru, they had used only the outmost isles of the West Reach-which may have been the easternmost borders of their own realm-for meeting and breeding, and had seldom even been seen by most of the islanders. Naturally irritable and arrogant, the dragons may have felt threatened by the increasing population and prosperity of the Inner Lands, which brought constant boat traffic even out in the West Reach. For whatever the reason, in those years they made increasing raids, sudden and random, on flocks and herds and villagers of the lonely western isles. apple on the tree. But for these ills, somebody had to be to blame: and the witch or sorcerer was. land to land." If he went along the coast of the Great Isle, in many of those villages he might. They listened to him, not agreeing, not denying, but accepting his despair. His words went into. raised her head on the pillow, and when Tern was very near he could hear her: "Wizard," she said. "The young men come to me and they say, "What good is it? Can you find gold?" they say. "Can you." Even if I argued for you. They won't listen. The Rule of Roke forbids women to be taught any high art, any word of the Language of the Making. It's always been so. They will not listen. So they must be shown! And we'll show them, you and I. We'll teach them. You must have courage, Dragonfly. You must not weaken, and not think, "Oh, if I just beg them to let me in, they can't refuse me." They can, and will. And if you reveal yourself, they will punish you. And me." He put a ponderous emphasis on the last word, and inwardly murmured, "Avert." "I won't sail my boat across Havnor, dear love.
